MEMPHIS, TENN., SUNDAY, SEPTEMBER 19, 1880.

VOL. XXXIX—NO. 223

WHAT TO DO WITH THE STATE DEBT.

Stagnation of the silver market has appeared among the people of a village near Odessa.

Read the article on taxes on the third page of today's Appeal. It contains a solid array of figures that are unanswerable.

Hon. JOHN E. CRAVEN, congressman from the third Arkansas district, has been re-elected to his seat, it is predicted, he is elected.

The two cotton mills of Mobile, with 2400 spindles and a capacity of 1400 bales a year, paid last year sixteen per cent. on the capital invested.

A wool mill with a capital of \$500,000 has been built in Mobile. It is estimated that it will consume from 100,000 to 150,000 pounds of wool annually.

The centennial of the battle of King's Mountain promises to be a success. A prize drill will take place on the closing day of the celebration, the successful company to take the centennial medal.

Every man and woman in Memphis should consider it a special duty to do what they can to add to the comfort and pleasure of the visitors to the city during the week of thanks giving, which begins to-morrow.

One singular feature of this campaign is the formation of Republican Hancock clubs. They are composed exclusively of Republicans who intend to vote for Hancock. There are several such clubs in the State of New York.

A DISPATCH from Houston, Texas, states that extensive rains are reported throughout that State, especially in the west and along the coast. The Houston and Texas central and the western branch, doing much damage to the crops.

TO THE NEW YORK Herald the two parties in Indiana appear to be watching each other as intently as all men were lions, there and elsewhere in the world. The blood shed in Maine does not seem to have improved political temper.

MRS. HENRY, one of the editors of the Philadelphia Times, who has been studying the situation in Maine, found many Republicans who, supporting the State ticket, would nevertheless vote for Hancock in November. Blaine ought to look into this.

The answer to the Nashville American's article on "The Situation in Shelby" will be a legislative ticket selected by high and low Democrats sitting harmoniously as members of one convention. Shelby leads in the exhibit of a spirit of compromise.

"I'm on the press," said John Henry, as he told his girl in an sweet dream. "Well, that's an answer why you should try to get the collar," she replied, as she rearranged her tumbled collar and pinned up her hair, which had come undone.

The London Economist comments on the advantages which the American bankers enjoy through the uniformity of the banking system of the United States, being able to move to concert joint action, whereas in England harmonious banking is an impossibility.

The Paris France demonstrates that the Catholic church establishment costs France directly and indirectly about \$200,000,000 yearly, instead of fifty solid millions, as has been generally supposed. An expense that the present tax-paying republic will not demand to be relieved of.

The low-tax executive committee have by a resolution, published in another column, urged the Democrats who they represent to urge with their best efforts to support the regular State ticket in the selection of a legislative ticket. This every Democrat who desires the success of the party will indorse.

MR. BURMAN, one of the proprietors of the Manhattan Beach and Oriental Hotel, New York, proposes to build a mammoth hotel in New York, which will be absolutely fire-proof, 800 by 200 feet, and to cost \$5,000,000. He confides the gigantic undertaking will be a success.

ALL persons visiting the city during the week of jubilee, which begins to-morrow, can ascertain at 13 Madison street where they can be accommodated with board and lodging. A competent clerk will be on duty there every day to give instructions and attend to the interests of visitors.

The September Agricultural Bureau reports the condition of the crop at 91, a decrease of 11 per cent. since August, and an improvement over September, 1879, of 6 per cent. The condition by States compares as follows:

	August	Decline	1879	1880
North Carolina	100	0	81	80
South Carolina	100	0	81	80
Florida	100	0	81	80

The double-breasted Prince Albert styles, three-piece suits, and now exceedingly fashionable. The suits, of every color and style, attract general attention, not only on account of their quality and make, but as to price, which is wonderfully low.
